Gower, lying to the west of Swansea, offers superb scenery, glorious sandy beaches, wooded valleys, open moorland and pretty villages. It is a fascinating and uniquely interesting area with superb and varied walking country that comprises a mixture of open moorland, steep hillsides, wooded valleys, fertile lowlands and a magnificent coastline. Added to this are medieval castles, picturesque churches and attractive villages and towns. The tremendous variety offered by the area is reflected in the interesting routes included within this guide.

**Above the Death Pits, Beneath the Flag** Jackie Feldman 2008 Israeli youth voyages to Poland are one of the most popular and influential forms of transmission of Holocaust memory in Israeli society. Through intensive participant observation, group discussions, student diaries, and questionnaires, the author demonstrates how the State shapes Poland into a living deathscape of Diaspora Jewry. In the course of the voyage, students undergo a rite de passage, in which they are transformed into victims, victorious survivors, and finally witnesses of the witnesses. By viewing, touching, and smelling Holocaust-period ruins and remains, by accompanying the survivors on the sites of their suffering and survival, crying together and performing commemorative ceremonies at the death sites, students from a wide variety of family backgrounds become carriers of Shoah memory. They come to see the State and its defense as the romanticized answer to the Shoah. These voyages are a bureaucratic response to uncertainty and fluidity of identity in an increasingly globalized and fragmented society. This study adds a measured and compassionate ethical voice to ideological debates surrounding educational and cultural forms of encountering the past in contemporary Israel, and raises further questions about the representation of the Holocaust after the demise of the last living witnesses.

**Tourism.Research.in.China** Songshan (Sam) Huang 2015-10 This book provides critical in-depth reviews on key themes and issues in tourism research in China. These themes include: Chinese scholars' epistemological views of tourism, rural tourism development, community participation in tourism, tourist market and behaviour, tourist attraction management and tour guiding and interpretation in China. While Chinese scholars are often able to access key research in both English and Chinese, the majority of researchers from outside China without knowledge of the Chinese language are unable to read original research from China. This book seeks to redress this knowledge imbalance and bring key Chinese tourism research to the international tourism academic community. This book will be a valuable reference for tourism researchers, postgraduate students and industry professionals.

**Quality Assurance and Certification in Ecotourism** Rosemary Black 2007 Genuine ecotourism can have many positive impacts, particularly the conservation of biodiversity and cultural heritage and the creation of economic opportunities for local communities. While promoting these, it aims to eliminate negative impacts such as environmental degradation, cultural commoditisation and playground effects. Unfortunately, the concept is broadly misunderstood and its true definition is widely debated. It is often used as a marketing tool, with some operators taking advantage of the ecotourism label to attract more business while behaving in environmentally irresponsible ways. This book considers the important topic of quality control and accreditation in ecotourism, describing the mechanisms that can be implemented to ensure quality in all aspects of the industry, namely protected areas, businesses, products and tour guides.

**Manual for Guiding Techniques** Ettore Amato 2021-06-15 As far as I am aware, Tourist Guide Techniques have not previously been the subject of many manuals. I have decided, then, to offer the future tourist guides everything my long career in the tourism field has taught me about the technical aspects of guiding. This to help them to better understand their role as interpreters of what is observed and how to practise it efficiently. There is no such thing as a universal way in which to guide tourists since this art and profession derives its uniqueness from the spontaneity and individual charisma of each tourist guide. What is presented in this manual is a method based on assorted suggestions and procedures that will assist the tourist guides and establish a sound understanding of what they must know. This manual, therefore, does not intend to supply a set formula which must be followed slavishly, since that would inhibit the individual creativity which each tourist guide should possess. Instead, this manual provides a mean to better prepare them TECHNICALLY for their future tasks. [Author]

Other chapters examine religious theme parks, wellness and spa tourism, the roles played by tourist guides, guidebooks and religious souvenirs, and the role of tourism as a major arena of religious encounters in the contemporary world. Surveying the growing body of work in the field, Michael Stausberg argues that tourism should be a major focus of research within religious studies.
